First Construction

First Construction ist der große Bastelspaß für kleine Baumeister ab 4 Jahren. Leicht zu handhabende Teile werden einfach zusammengesteckt und durch ein patentiertes Schraubensystem miteinander verbunden. Anschließend sind die Teile robust genug, um auch actiongeladene Einsätze im Kinderzimmer zu überstehen.

First Construction is great fun for young builders of 4 years and up! Parts are easy to handle and simply joined together and linked by a patented plastic screw system. Once completed, models are strong enough to withstand action-packed play!

Gestalte Dein Design für das Builders' Choice Modell 2022!

Nach einer internen Vorauswahl bestimmt die Facebook-Community das diesjährige Sieger-Design. Dieses wird von Revell als Modellbausatz umgesetzt und in den Handel gebracht. Ganz Eilige können das Builders' Choice Modell 2022 bereits jetzt im Revell-Shop vorbestellen. Was ist Dein Design?

Create your own design for the Builders' Choice Modell 2022!

After an internal pre-selection the Facebook community decides on this year's winning design. This will be realized by Revell as a model kit and then brought into stores. Those in a great hurry can already pre-order the Builders' Choice model 2022 in the Revell Shop. What is your design?

REALISTISCHE FUNKTIONEN

REALISTIC FUNCTIONS

MOTOREN MOTORS

DAMIT KOMMT LEBEN INS MODELL!

Mit Revell Technik kommt Leben in den Plastikmodellbau. Hochdetaillierte und anspruchsvolle Modellbausätze werden mit modernen Elektronikkomponenten aufgewertet, die es ermöglichen Beleuchtung und Bewegung am Modell umzusetzen.

Alle Komponenten sind individuell auf den jeweiligen Bausatz abgestimmt und können direkt verbaut werden. Aufwendiges Löten und Zurechtschneiden der Kabel entfällt. Die vorprogrammierte Steuereinheit schaltet vollautomatisch die Funktionen am Modell und sorgt damit für eine realistische Darstellung.

BRING LIFE TO YOUR MODELS!

Revell TECHNIK brings life to plastic model kit building. Highly detailed and sophisticated model construction kits are upgraded to include modern electronic components which will allow the incorporation of light and movement into the model.

All components are individually matched to the respective kit and can be installed without fuss. Complex soldering and wire trimming is not necessary. The pre-programmed control unit automatically activates the functions on the model and thus ensures a realistic effect.

DIE SCHNELLE UND EINFACHE ALTERNATIVE ZU AIRBRUSH

THE FAST AND EASY
ALTERNATIVE TO AIRBRUSH

SPRAY COLOR 100 ml

Erst durch die optimale Bemalung erhält ein Modell sein originalgetreues Aussehen. Insbesondere große Flächen lassen sich jedoch nur schwer mit dem Pinsel lackieren. Für diese Anwendungen gibt es jetzt die 32 am häufigsten verwendeten Revell-Farben in der praktischen 100-ml-Sprühdose. Revell Spray Color sind Acrylfarben, die sehr schnell trocknen und eine hohe Deckkraft sowie eine hohe Kratzfestigkeit besitzen. Aufgrund ihrer besonderen Zusammensetzung lassen sich mit Spray Color auch Polycarbonat-Karosserien von RC-Cars lackieren.

A model only gets its true-to-the-original appearance after receiving an optimal paint job. Large surfaces, in particular, can only be painted with a brush with great difficulty. For these applications, the 32 most frequently used Revell colours are now available in 100ml spray cans.

Revell Spray Color is a series of acrylic paints which dry very quickly, have a high opacity and have high scratch-resistance. Due to the special composition, Spray Color paints can also be used on polycarbonate bodies of RC cars.

3. Fest!
Fixed!

Auftragen. Anleuchten. Fest! So einfach funktioniert der Revell FIX-kit UV Superkleber. Durch die besonderen Eigenschaften des Produkts können vor dem Verkleben die Teile problemlos platziert werden. Die Klebewirkung setzt erst ein, wenn die Klebestelle mit der beiliegenden UV-Leuchte angeleuchtet wird. Bereits nach ca. 5 Sekunden sind die Teile fest miteinander verbunden. Revell FIX-kit UV Superkleber verklebt verschiedenste Materialien wie Kunststoff, Glas, Keramik oder Holz und ist damit außergewöhnlich vielseitig einsetzbar.

- Einfache Handhabung
- Härtet innerhalb weniger Sekunden aus

Apply. Cure. Fixed! That's just how simple the Revell FIX-kit UV super adhesive really is. Thanks to the product's special properties, parts can be put in place easily before glueing. The adhesive effect only starts to work when the adhesive joint is cured using the enclosed UV lamp. After just 5 seconds the parts form a firm bond. Revell FIX-kit UV super adhesive works on the widest variety of materials such as plastic, glass, ceramic or timber, making it extremely versatile.

- Ease of use
- Hardens in just a few seconds
